

Repair instruction

Description: Glass Lid – Spinflo Hobs

Look for Service Centres, Point of Sale addresses and other information on: www.thetford.eu

Version:

Date:

May 2009

Tools required:

Flathead Screwdriver,

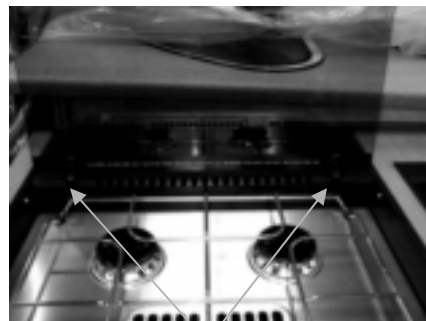

A

The Glass lids on all current Spinflo appliances are held to the hinges in the same way

B

Lift the lid and locate the two grub screws holding the lid in place

C

By loosening the screws a couple of turns the glass lid can be lifted away from the hinges, there is no need to remove the grub screws
